Buddha of Compassion - Chenrezig Teaching and Empowerment of Shakya Shri's Mind Terma

Shakya Shri (1853-1919) was an accomplished master of the Mahamudra and Dzogchen traditions. He was recognized as one of the 25 accomplished disciples of Guru Padmasambhava, and is the great grandfather of Khandro Rinpoche. This Mind Terma was directly transmitted from Guru Padmasambhava to Shakya Shri during meditation, flowing spontaneously from his mind. Such a direct and profound teaching on compassion is very relevant in this chaotic time.

Last year Khandro Rinpoche offered the transmission and teaching of this practice and now we are fortunate enough to be able to receive the precious empowerment from her - the great grand daughter of Togden Shakya Shri. This, together with further teaching, will deepen our understanding and practice. We are so grateful to Rinpoche for this rare opportunity.

The Meditation Path of the Yogic Lineage of Togden Shakya Shri (Retreat camp)

Meditation is the practice and gateway for any spiritual practitioner. Meditation increases awareness and leads us through calm abiding and insight wisdom, to a deepening of stability, appreciation and happiness. We get to stop and look inward and find a different view.

We will be staying together for 2 days and the first evening Khandro Rinpoche will give an introduction to the Shakya Shri meditation lineage and teach on the developmental stages of this path in order to assist us in contextualising our meditation practices.

The following two days will be devoted to practice – it is vital to know exactly what we are doing when we meditate! Those who have been engaged in the daily practices with Khandro Rinpoche, as well as those interested in meditation generally, will find these teachings instructive, inspiring and illuminating.
